

"Coach Carter" - Essential Competencies Journal

After watching the film "Coach Carter", it is important to note the ways in which he was an inspirational leader. You are required to write a journal (approximately 1.5-2 typed pages, double spaced) In this journal you should note the following:

- Leadership skill and abilities that Coach Carter possessed. Feel free to google a list of leadership traits to help with this.
- Ways in which Coach Carter used the five essential competencies (inspiring a shared vision, enabling others to act, challenging the process, encouraging the heart and modeling the way)
- Wherever possible give specific examples (thing he said or did) to show both his qualities and how he employed leadership competencies.

The more you give examples the easier it will be to write this journal. You may also want to provide your own comments/evaluation of his leadership style.

You will be marked on:

- 10 marks - at least 10 qualities are listed
- 5 marks - all five essential competencies are shown
- 10 - specific examples are provided which show both of the above

Total /25 marks
